Editor's Corner: A Final Good-bye 1
R.L. Glass

Editor's Corner: Stepping up to the Plate 3
D.N. Card

On the independence of software inspectors
J. Miller 5

A matching-based algorithm for page access sequencing in join processing
A. Lim, W.C. Oon and C.-H. Chi 11

Streaming extensibility in the Modify-on-Access file system
H.R. Kendall, V.W. Freeh, P.W. Schermerhorn, R.J. Minerick and P.W. Rijks 21

Design and implementation of spatiotemporal database query processing system
D.H. Kim, K.H. Ryu and C.H. Park 37

On the application of formal description techniques to the design of interception systems for GSM mobile terminals
M.J. Fernández-Iglesias, F.J. González-Castaño, M. Llamas-Nistal, J.M. Pousada-Carballo and J. Vales-Alonso 51

Formal modeling in a commercial setting: A case study
M. Chechik and A. Wong 59

Controversy Corner: The importance of ignorance in requirements engineering: An earlier sighting and a revisitation
D.M. Berry 83

Special issue on Artificial and Computational Intelligence for Decisions, Control, and Automation in Engineering and Industrial Applications

Guest Editorial
K. Barkaoui, M. Jmaiel and A. Mili 87

From program languages to software languages
P. Pepper, M. Cebulla, K. Didrich and W. Grieskamp 91

Designing reactive systems: integration of abstraction techniques into a synthesis procedure
R. St-Denis 103

Formal design and development of a Corba-based application for cooperative HTML group editing support
E. Roblet, K. Drira and M. Diaz 113

A software environment task object-oriented design (ETOOD)
D. Tabary and M. Abed 129

Implementation of distributed iterative algorithm for optimal control problems on several parallel architectures
M. Jarraya and D. El Baz 141

Galois connection, formal concepts and Galois lattice in real relations: application in a real classifier
A. Jaoua and S. Elloumi 149

Special section on Information Security

Automated discovery of concise predictive rules for intrusion detection
G. Helmer, J.S.K. Wong, V. Honavar and L. Miller 165

A group signature scheme with strong separability
S. Xia and J. You 177

Special section on Industrial Information Systems: Progress and Perspectives in the Pacific Rim

Guest Editorial
C.S. Leem and C.-L. Wang 183

Architectural design and evaluation of an efficient Web-crawling system
H. Yan, J. Wang, X. Li and L. Guo 185

A reference system for internet based inter-enterprise electronic commerce
K. Shin and C.S. Leem 195

Integrity protection for Code-on-Demand mobile agents in e-commerce
T. Wang, S.-U. Guan and T.K. Chan 211

A computerized causal forecasting system using genetic algorithms in supply chain management
B. Jeong, H.-S. Jung and N.-K. Park 223

Applying a mediator architecture employing XML to retailing inventory control
S. Chan, T. Dillon and A. Siu 239

Introduction to an integrated methodology for development and implementation of enterprise information systems
C.S. Leem and S. Kim 249
